Question

Is the bolsterring of the comb on a flintlock rifle allowed?

Remarks

Yes, this is allowed as long as the rules below are followed :

it is only done on rifles for free flintlock rifle events (Pennsylvania, Maximilian)

- it is fully removable, and on the original gun are no permanent modifications, that would spoil its historical value.

- it is solely done with contemporary materials (such as leather and felt)

- it is attached with a contemporary method (such as leather straps)
